PICTURE 8

- To fit the radiator guard to the bike cut the foam strip provided into 10mm wide pieces and stick them to the back of the radiator guard frame, so that they sit between the radiator guard and the radiator.
- Remove the two bolts that secure the plastic radiator surround in place on either side of the bike, as shown in picture 1.
- Unclip the sides of the plastic radiator surround on either side of the bike, as shown in picture 2.
- Remove the two push rivets that secure the bottom of the plastic radiator surround, arrowed in picture 3.
- The plastic radiator surround can now be removed from the front of the radiator.
- Remove the 10mm bolt that secures the top of the radiator in place, arrowed in picture 4.
- Now offer the radiator guard into place. Take care to ensure the radiator slides up and under the brake lines and horn wiring (there is a cut-out in the radiator guard frame to aid clearance), as shown in picture 5.
- Locate the bolt through the radiator guard and into the top radiator mount but do not tighten at this stage.
- Locate the cable tie through the remaining mount on the radiator guard, around the plastic mount and tighten, as shown in picture 7.
- Offer the front of the plastic radiator surround back in place sandwiching the radiator guard between the radiator and plastic surround, and return the push rivets in place.
- Now tighten the bolt to secure the radiator in place.
- Clip the plastic radiator surrounds side pieces back in place and refit the original bolts.

CONSUMER NOTICE

The catalogue description and any exhibition of samples are only broad indications of the Products and R&G may make design changes which do not diminish their performance or visual appeal and supplying them in such state shall conform to the order. The Buyer acknowledges no representation or warranty (other than as to title) has been given or will apply to the Products other than those in R&G's order or confirmation and the Buyer confirms it has chosen the Products as being of merchantable quality and suitable for its particular purposes. Where R&G fits the Products or undertakes other services it shall exercise reasonable skill and care and rectify any fault free of charge unless the workmanship has been disturbed. The Buyer is responsible for ensuring that the warranty on the motorcycle is not affected by the fitting of the Products. On return of any defective Products R&G shall at its option either supply a replacement or refund the purchase money but shall not be liable if the Products have been modified or used or maintained otherwise than in accordance with R&G's or manufacturer's instructions and good engineering practice or if the defect arises from accident or neglect. Other than identified above and subject to R&G not limiting its liability for causing death and personal injury, it shall not be liable for indirect or consequential loss and otherwise its liability shall be limited to the amounts paid by the Buyer for the Products or the fitting or service concerned. These terms do not affect the Buyer's statutory rights.

R&G RACING RETURNS POLICY (NON-FAULTY GOODS)

Returns must be pre-authorized (if not pre-authorized the return will be rejected). Goods may only be returned direct to us if they were purchased direct from us (customer must prove if necessary). Otherwise to be returned to original vendor. Goods must be in re-sellable condition, in the opinion of R&G Racing. All returns are subject to a 25% restocking and handling fee (25% of the gross value exc. P&P – at the prevailing price at time of purchase). The customer must pay any and all carriage charges. No returns of discontinued products, unless within 14 days of purchase. This policy does not affect your statutory rights and does not refer to faulty goods.

Photo 7

Photo 8

- Pour poser la protection sur la moto, couper la mousse autocollante fournie en pièces de 10mm puis collez ces pièces sur le cadre de radiateur, de façon à ce que la mousse soit située entre le radiateur, et la protection radiateur.
- Enlever les 2 boulons qui fixent le contour en plastique du radiateur des 2 cotés de la moto (photo 1).
- Déclipser les cotés du contour en plastique de l'un ou l'autre coté (photo 2).
- Enlever les 2 rivets qui fixent le bas du contour en plastique (photo 3).
- Le contour en plastique peut maintenant être enlevé de l'avant du radiateur.
- Enlever le boulon de 10mm qui fixe le haut du radiateur (photo 4).
- Mettre la grille de protection en place. S'assurer le radiateur glisse vers le haut et en dessous des conduites de frein et du câblage. (Il y a une petite coupure qui aide à se repérer), (photo 5).
- Mettre l'attache câble à travers le support restant dans la protection radiateur, autour du support en plastique puis serrer (photo 7).
- Mettre le contour de radiateur en plastique en place, mettant en sandwich la protection radiateur entre le radiateur et le contour de radiateur en plastique, puis remettre les rivets en place.
- Serrer le boulon pour fixer le radiateur en place
- Clipser les contours de radiateur en place et remettre les boulons d'origine.
